Feb 26, 2018

Dear Niagara College:

I'm pursuing a career in Canada's medical cannabis industry and would love to provide my leadership and knowledge of the industry to assist in an entry-level position with one of Canada's licensed producers. My goal is to help provide patients the relief they deserve through medical cannabis by working for a licensed producer with similar values.

Previous employment opportunities in nurseries and as a landscaper along with Durham College's "Horticulture - Food and Farming" program have provided me with the valuable experience and horticultural knowledge necessary to excel in this industry. Niagara College's "Commercial Cannabis Production" program is a perfect opportunity to acquire the hands-on training that I need to further pursue my career goals. I'm not at all afraid of hard work, I'm always eager to learn and I take pride in going the extra mile.

If you would like to get in touch to discuss my application and arrange an interview you can contact me via phone at 647 801 1742 or via email at peteyalyanak@hotmail.ca

Thank you for your time. I look forward to hearing from you soon.

Yours sincerely,

Peter Alyanak
